

Issue List

Add-on / TE	Category	Issue	Change Required	Priority
Check box	Select	Use Shift to select a range of items does not work properly	Fix	2-High
Tab groups	Workspaces	Sometimes double-click to rename a group does not work, especially when a group is just switched to. If this is difficult to fix, simply remove this double-click ability. Users can still choose the rename function from the context menu by 2 clicks (1 right + 1 left) anyway.	Fix	3-Medium
