

Issue List

Add-on / TE	Category	Issue	Change Required	Priority
TE	Customization	<"Type" Drop-Down Box> When I choose "Selected items" and click "Browse...", a "TypeError" message box shows.	Fix	1-Highest
TE	Customization	<"Type" Drop-Down Box> When I choose "Load layout" or "Save layout" and click "Browse...", nothing happens. I expect that TE will show a file picker for me to choose an XML file, similar to using "Tools > Load layout..."	Fix	2-High
TE	Customization	<"Type" Drop-Down Box> I choose "Load layout" and manually specify a layout file. I expect TE to load the layout at startup but it does nothing.	Fix	2-High
TE	Workspaces	If: - there are multiple panes, and - a user enables "Tab groups" add-on Sometimes the breadcrumbs address bar incorrectly shows the address of the current tab of an inactive pane. (If you cannot re-generate the problem, switch the active pane and re-try)	Fix	2-High
TE	Workspaces	Just after the above, TE cannot activate the inactive pane, e.g. - Click the tab area - Click any tab - Click the file list - Hover the mouse pointer on any item of the file list - Click the inner address bar Unless a user does anything on the active pane first	Fix	2-High
TE	Workspaces	If: - the current workspace has multiple panes, and - a user adds a new workspace (by choosing "New tab" from context menu or by clicking + button) Sometimes the breadcrumbs address bar incorrectly shows the address of the current tab of an inactive pane. (If you cannot re-generate the problem, switch the active pane and re-try)	Fix	2-High
Favorites bar	Favorites	Cannot show a correct icon if the icon - is specified in "Icon" field in "Favorites > Edit", and - is an EXE file or an image file (no such problem in version 1.24)	Fix	3-Medium
Label	Ranking and Labels	Space can be input in a label Suggestion: - trim any leading and trailing space automatically at input time - still allow space within	Fix	3-Medium
Label button	Ranking and Labels	"Shift+Click to add a label for searching" does not work on version 1.07 and later (It works on version 1.06).	Fix	3-Medium
