✦ **Before Moving Towards Dynamic Websites,**

Please Ensure That:

- ✓ **I Used Free Hosting Service (Render) To Deploy My Projects!**
- ✓ **Be patient while it loads the data ⏱ (free instance (Server) will spin down with inactivity, which can delay requests by 50 seconds or more).**
- ✓ **Once you get the first response, Voilaaa!**
- ✓ **The instance is now up & running!**
- ✓ **And will give response instantly!**

Full Stack Dynamic Websites!
(Server + Database)

Sr. No	Project Name	Tech Stack	Deployment Date	Is Responsive?	Access URLs
