- Released apps on App Store. Experience on TestFlight.
- Self-motivated, team-oriented human being with strong analytic abilities.
- Capable of providing creative solutions to problems and technical flaws.
- Proficiency with written and spoken English.

PROJECTS

Plaka - Developed in 2024

- The application is built to serve for users who wants to find out a Turkish city from its number on a licence plate in Turkey.
- Developed using Swift, SwiftUI. Components like Grid, Searchbar, Alert are used in the app.
- GitHub Link: github.com/Furkakts/Plaka-project

Saat Topu(Timeball) - Released in 2024 on App Store

- Saat Topu(Timeball) is a game that you play with stopwatch. All you have to do to score is to pause stopwatch at the right moment. You can also score from penalty and free kick if you pause stopwatch at the time explained in the rules. You can change difficulty if difficulty is so easy for you. You can play the game in 2 different languages, English and Turkish.
- App Store Link: <https://lnkd.in/gKFfdKzX>

InMind - Developed in 2024

- The application is crafted to store your passwords. With this app you don't need to memorize or scribble your passwords on a piece of paper anymore. Moreover you can attach notes to your passwords to remember some details about your password. And whenever you need to use your password, all you need to do is copy and paste it.
- Developed using Swift, SwiftUI. Components like Onboarding, CoreData, UIPasteboard are used in the app.
